

# LOANE

## MULTI PURPOSE VARIETY

- *A variety with nice shape and big uniform tubers.*
- *Very good yield.*
- *LOANE is very well adapted to be grown under Mediterranean climate.*
- *Good behaviour at long storage.*

## PHYSIOLOGY

Skin colour	Deep yellow
Flesh colour	Yellow
Tuber Shape	Long oval
Tuber Size	Large
Tubers Number	Fairly low
Tuber Shape Uniformity	Uniform
Eyes Depth	Very shallow
Maturity	Main crop
Dormancy	Average
Physiological Aging	Low
Storage	Fairly good

## YIELD - QUALITY

Main use	General purpose
Yield	High
Dry matter content	Average (18-20 %)

## RESISTANCES

Foliage Blight	Fairly resistant
Tuber Blight	Fairly susceptible
PVX	n.a
PVY	Fairly resistant
PVY <sup>ntn</sup>	Fairly resistant
PLRV	n.a
Pitted Common Scab	Fairly resistant
Netted Common Scab	Fairly resistant
Wart Disease - <i>Physio 1</i>	Fairly resistant
Wart Disease - <i>Physio 2</i>	n.a
Wart Disease - <i>Physio 6</i>	n.a
Globodera Rostochiensis - <i>RO 1-4</i>	Resistant
Globodera Rostochiensis - <i>RO 5</i>	n.a
Globodera Pallida - <i>Pa 2-3</i>	n.a
Meloidogyne Chitwoodi	n.a
Erwinia	n.a

## OTHER RESISTANCES

Hollow Heart	Resistant
Mechanical Damages	Fairly resistant
