

YONA

MULTI PURPOSE VARIETY

- *YONA is a pale red skin variety producing very big tubers regular in size.*
- *The crop cycle of YONA is rather long but its yield is very high, superior to Désirée.*
- *Excellent at storage, gifted of some key diseases resistances, YONA is a variety very well adapted to the so-called "traditional markets".*
- *YONA is perfectly recommended for home made French fries.*

PHYSIOLOGY

Skin colour	Pale red
Flesh colour	Yellow
Tuber Shape	Oval
Tuber Size	Very large
Tubers Number	Low
Tuber Shape Uniformity	Average uniformity
Eyes Depth	Shallow
Maturity	Late main crop
Dormancy	Average
Physiological Aging	Moderate
Storage	Very good

YIELD - QUALITY

Main use	General purpose
Yield	High
Dry matter content	Average (≈20 %)

RESISTANCES

Foliage Blight	Good
Tuber Blight	Good
PVX	n.a
PVY	n.a
PVY ^{ntn}	Fairly resistant
PLRV	
Pitted Common Scab	Fairly susceptible
Netted Common Scab	Fairly susceptible
Wart Disease - <i>Physio 1</i>	Resistant
Wart Disease - <i>Physio 2</i>	Resistant
Wart Disease - <i>Physio 6</i>	Resistant
Globodera Rostochiensis - <i>RO 1-4</i>	Resistant
Globodera Rostochiensis - <i>RO 5</i>	n.a
Globodera Pallida - <i>Pa 2-3</i>	n.a
Meloidogyne Chitwoodi	n.a
Erwinia	Moderately susceptible

OTHER RESISTANCES

Hollow Heart	Fairly resistant
Mechanical Damages	Fairly susceptible
